

Announcement:

Korea – Spain Call for Proposals for Joint R&D Projects

Deadlines for Submission – 31st March 2016 (call 2016-1), 31st August 2016 (call 2016-2)

Scope

Korea and Spain are announcing the Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. Applicants are expected to develop ready to market solutions or projects which have strong market potential for Korea and Spain.

- ★ KIAT (Korea Institute for Advancement of Technology) and CDTI (Centre for the Development of Industrial Technology of Spain) will provide access to public funding for joint projects.
- ★ The call is announced within the framework of the bilateral Cooperation Agreement on Industrial Cooperation between KIAT and CDTI. The call is managed in cooperation and in line with the procedures of EUREKA Programme (www.eurekanetwork.org).
- ★ KIAT and CDTI will provide all necessary assistance to project partners during project proposal, evaluation and monitoring phase. In addition, both parties will facilitate EUREKA application process and the acquisition of the EUREKA label for accepted proposals.

Call Launch and Structure*

The first 2016 Call is launched on **18th February, 2016** by KIAT and CDTI, and will be opened until **31st March 2016 at 18:00 (based on local time for which the respective national funding agency is located)**. The second 2016 Call will be opened until **31st August 2016** at 18:00 (local time). This call is open in line with EUREKA programmes.

Eligible partners are invited to present joint proposals for industrial R&D projects according to the following criteria:

Qualifications

- The partners should consist of least one Korean and one Spain R&D performing company. Participation of research institutes/universities is welcome as additional participants or subcontractors according to each country's funding regulations.

* The following call will also support bilateral R&D projects.

- Innovative projects ready to market, which have also strong market potential for Korea and Spain, are expected.
- The project should have an obvious advantage and added value resulting from the cooperation between the participants from the two countries and should meet the following criteria:
 - Technological excellence and qualification of the applicants (assessment by external referees or expert committee).
 - Contribution to the competitiveness in the area of research.
 - Sustainability of the project: long-term strategy of the partnership.
 - Intensity of the collaboration with between the Korean and Spanish partners.
 - Ability of the teams to successfully conclude the project.
 - Mutual advancement of research through the transfer of knowledge and expertise.
- The project should demonstrate the contribution of the participants from both countries on a balanced basis and must be equally significant to both participants.
- All the technological areas are welcomed although the targeted industrial areas are preferred: Bio including Health; Green technologies, including Energy; Smart city and Transportation; Information and Communication technologies; Nanotechnology; Materials; New Production Technologies and Aerospace.

Any partner whose cooperative R&D project is consistent with the aforesaid criteria can apply to the present announcement in accordance with the national Laws, Rules, Regulations and Procedures in effect.

Submission and Approval Procedures

- The completed electronic forms should be submitted to KIAT and CDTI simultaneously by **31st March 2016** for the first call in 2016 and **31st August 2016** for the second call in 2016.

Partners will be asked to present the following common documents in KIAT and CDTI:

- EUREKA Application form signed by the legal representatives of all participants. The signatures pages can be scanned and sent in a separate document. Template available at <http://www.eurekanetwork.org/download-project-application-form>
- Consortium Agreement signed by the legal representatives of all participants.

The common documentation will be included at national agencies' procedure as part of the whole process:

Procedure in KIAT:

- The participants will submit a formal national application through Project Management System (<https://www.pms.re.kr>)

Procedure in CDTI:

- Participants will submit an EUREKA application with the common documents, and additionally:
 - Preliminary report in Spanish.
 - Online information filled.

The applications will be screened and evaluated by KIAT and CDTI. The applicants will be notified of the results of the evaluation process within 30 days after the completion of the national evaluation. The national evaluation process depends on each country's individual policies and procedures.

Financing Rules

Each country will fund its eligible participants in the framework of EUREKA programmes, subject to budget availability, on a non-exchange of funds basis and according to their national procedures and funding rules. Funding conditions and eligibility criteria may vary from one country to another. The main aspects of funding criteria are described below:

Spain:

- CDTI will finance industrial research and/or technological development activities to companies legally established in Spain. Universities and research centers can be funded as subcontractors.

The funding modality for the project will be a partially reimbursable soft loan at Euribor interest rate on the date of the contract, with a financial cover of 75% of the total approved budget. The non-reimbursable part will be up to 30% of the loan. Detailed information can be reached [here](#).

Spanish tasks in the project can only start after submitting the funding application to CDTI. For further information contact directly CDTI.

Korea:

- The Korean dedicated budget provided by the Ministry of Trade, Industry and Energy (MOTIE) and managed by KIAT is open to all applications from companies with registered R&D laboratories, research institutes and universities. The partners should consist of at least one Korean and one Spain R&D performing company. Participation of research institutes or

universities is welcome as additional participants or subcontractors according to each country's funding regulations.

Project funding is comprised of government contributions and civilian dues (cash and in-kind). The amount of government contributions will vary depending on the type of executing organizations and project in accordance with Article 24 (Funding criteria) and Article 25 (Civilian dues) of the Common Operational Regulations for the Industrial Technology Innovation Programs.

A party that participates in a project shall carry out its project using the government contributions allocated to it, and for-profit organizations shall individual bear the cash portion of civilian dues.

Classification	Share of government contributions in executing organization's project budget		Share of cash in executing organization's civilian dues	
	Original technology	Innovative product	Original technology	Innovative product
Large company	50% or less	33% or less	60% or more	
Mid-tier company	70% or less	50% or less	50% or more	
SME	75% or less	67% or less	40% or more	
Other	100% or less	100% or less	To be borne if necessary	

Partnering Opportunities
